CD

Dear Woodhaven Neighbors,

We are pleased to share some important news. On August 6, the Texas Business Court entered a Final Judgment dismissing all of the outstanding claims originally brought against Will Northern, Crescendo Development, and the Limited Partnership that owns the former golf course property in the lawsuit over the Woodhaven redevelopment project. The attached press release and a copy of the Texas Business Court's Final Order contain additional details.

More importantly, our team wants to thank you. Over the last two years, you've given us your time, your trust, and your willingness to work together even while this litigation created uncertainty for the project's future. We don't take that for granted, and it has meant a great deal.

Together we can bring real reinvestment into this community — the kind Woodhaven has deserved for a long time.

Woodhaven's future is bright!

With gratitude,

--
