

WCD Compliance Review - Supporting Documents

Attachment packet for correspondence with the City of Fort Worth Community Engagement Office

Contents

1 IRS tax-status evidence summary

Identifies WCD, its EIN, the reported 2018 automatic revocation, and the February 2025 current exemption date. This is a sourced summary, not an IRS-generated TEOS printout.

2 WCD support letter and developer submission

Reproduces WCD's January 4, 2025 support letter for ZC-24-147 and the January 6, 2025 email submitting it as formal organizational support.

3 City registration guidelines - relevant official provisions

Reproduces the City's requirements for redevelopment organizations and its non-compliance procedure from the June 2026 policy.

4 WNA bylaws - relevant excerpts

Reproduces the provisions designating the WNA president as WNA's liaison to WCD and vesting management authority in the WNA Steering Committee.

Important source note

The IRS bulk-data ZIP and the original web-hosted PDFs could not be downloaded into the local file workspace. The documents in this packet therefore reproduce the relevant source text and identify the source location. The WCD letter is also preserved in the City-produced correspondence already obtained through the public-information process. For the strongest evidentiary submission, replace Attachment 1 with an IRS TEOS printout showing the exact revocation and reinstatement dates when available.
